

Question:

Why is **Canada's Medical Clinic (CMC)**, the smart physicians first and only choice for their new medical home?

Answers . . .

- ❖ At **Canada's Medical Clinic (CMC)**, our split equates to a range from **75% - 125%** of the physician's gross billable income.
This means that when you start, you retain **75%** of your billable income and your overhead is **25%**. Then the magic begins, and your overhead shrinks down to **20%, 15%, 10%, 5%** and then **0%**...
Yes, at this point you are retaining **100%** of your billable income.
But it doesn't stop there, it gets better, it turns around and you begin to retain the equivalent of **105%, 110%, 115%, 120% & 125%**, and more, of your billable income.
Finally, you are now earning like the valuable, irreplaceable, profit-sharing physician partner that you are, and you have not invested any capital into the company.
- ❖ **CMC** is the only clinic network in Canada, which offers a retirement income, after the physician ceases practicing. No other clinic network in Canada offers any form of retirement.
At **CMC**, when you retire, after you hang up your stethoscope, that's right after you cease practicing, you will receive a profit-sharing retirement income through to the end of your life.
As a CMC physician partner, after you hang up your stethoscope, you will receive a higher retirement income than you would have earned while practising as a physician at another clinic. \$300K ++
- ❖ **CMC** is the only clinic network in Canada, which offers its physician partners, an income which continues beyond their life, as it should for a true partner. Yes, you read correctly, after the physician dies, their spouse/estate will continue to receive a substantial income, continuing for years to come. **\$1M ++**
- ❖ At **CMC**, we have the best staff, technology, and billing support, allowing the physicians to leave work at work. All physician partners have full access to all company vacation properties, at no charge.
Life is Short - you and your family deserve true work-life-balance.
- ❖ At **CMC**, you will also have the ability to move and relocate to any city in Canada, and continue practicing with **CMC**, while continuing to receive the same level of physician partnership income.

At CMC, we know you have many options & we still have more to share with you, but we are out of room, so let's summarize...

Your input & ideas are important, we need & value your help. That is why at **CMC**, our physicians become profit-sharing partners, as soon as they join the team. As a physician partner, you are rewarded with the highest possible compensation & an unmatched profit-share income program for the duration of your practising career. This profit share income program then continues into retirement for the rest of your life and beyond to the benefit of your loved ones.

Get paid what your worth, during & beyond your working career...
